Dear shareholders, ladies and gentlemen,

First, on behalf of the managing team and all the staff, we would like to express our gratitude to all shareholders for the long-time support and care for INFO-TEK. Here is the report on the business performance in 2022 and the business plan for 2023:

#### 1. Business Performance in 2022:

In 2022, after the resolution of the COVID-19 pandemic, we experienced different challenges such as an imbalance in the supply and needs of electronic components and critical parts. On the other hand, the new energy vehicles market worldwide benefitted from government policies and the developing trend of the industry. Sales of new energy vehicles are continually increasing. We have invested in the market of new energy vehicles for many years, and there is prominent growth in automotive products.

For Taiwan factory, because of the introduction of mass production for new customers, cost reduction and increased efficiency in factories, profits are continually rising.

For factories in Mainland China, with the Suzhou factory operating at full capacity and the introduction of the Wuhu factory, production capacities are expanding. Through our persistence in quality control and steady supply, we gained support from customers and received more orders. In addition, sustained internal cost control led to continued growth in profits.

Conclusively, compared with the previous year, the revenue and profit in 2022 have significantly increased, and it was the best year in profits since the company went public on Taipei Exchange in 2005.

The annual consolidated revenue in 2022 is NTD(as in amounts below) 6.852 billion, which had an increase of 52.1% in comparison to \$4.513 billion in the previous year; The individual revenue of the parent company is 466 million, which had an increase of 16.7% in comparison to \$399 million in the previous year. In terms of profits, In 2022, the annual consolidated net profit after tax is 675 million, which had a growth of 35% in comparison to 500 million in the previous year. The basic EPS is 5.63 dollars.

# 4. The effect of the external competitive environment, regulatory environment and the overall operating environment

Looking ahead to 2023, with the alleviation of the pandemic, countries are opening their borders in succession, with the hope of restoring lives before the pandemic. This will help the revival of the economy and the market. However, during the pandemic, due to the imbalance of supply and demand of electronic components and critical parts, the inventory level is still high with slow clearance. Besides that, with the effect of high inflation and high-interest rates on the financial environment, and trading worldwide is still under the influence of the Russo-Ukrainian War, geopolitics, and protectionism, the EMS industry and our business are still facing great challenges.

As countries strive for goals such as zero carbon emissions and ESG sustainable development, there is significant growth of new energy vehicles (NEV) in 2023, in which China is the most iconic as it is the largest manufacturer and sales of NEVs. According to the statistics released by the China Association of Automobile Manufacturers, the production of vehicles reached 27.02 million, and 26.86 million vehicles were sold in 2022, with an increase of 3.4% and 2.1% respective on year-over-year growth. Among them, the production of NEVs reached 7.058 million, and 6.887 million NEVs were sold, with an increase of 96.9% and 94.3% respective on year-over-year growth, and the market share is 25.6%. In future years, as countries keep pursuing zero carbon emissions, the growing trend of NEVs will remain unchanged.

When facing the aforementioned challenges and opportunities, we follow the

philosophy of Passive System Alliance (PSA), which is "Equal significance of shareholder values, employee welfare, and social responsibility", hoping that the company can achieve profitability, shareholders can have reasonable returns, and corporate social responsibility can be fulfilled at the same time, creating a high-quality working environment that benefitted mutually with colleagues. Thus the operation performance can be strengthened, and we can give back to the shareholders and contribute the society, achieving management with multiple win-win cycles. Finally, I wish all shareholders good health and everything goes well!

Cheers!

Chairman: Chiao Yu-Heng General Manager: Liu Chen-Yu Accounting Chief: Huang Po-Chang

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements for the year ended December 31, 2022 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Chun-Ming Hsueh and Sheng-Hsiung Yao.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, furure events or conditions may cause the Group to cease to continue as a going concern.
- 11. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- 23. Matters relating to the resolutions of a shareholders meeting shall be recorded in the meeting minutes. The meeting minutes shall be signed or sealed by the chair of the meeting and a copy distributed to each shareholder within 20 days after the conclusion of the meeting. In the event of a virtual shareholders meeting, the Company shall upload the above meeting materials to the virtual meeting platform at least 30 minutes before the meeting starts, and keep this information disclosed until the end of the meeting.

During the Company's virtual shareholders meeting, when the meeting is called to order, the total number of shares represented at the meeting shall be disclosed on the virtual meeting platform. The same shall apply whenever the total number of shares represented at the meeting and a new tally of votes is released during the meeting.

Under the circumstances where a meeting should continue as in the preceding paragraph, the shares represented by shareholders attending the virtual meeting online shall be counted towards the total number of shares represented by shareholders present at the meeting, provided these shareholders shall be deemed abstaining from voting on all proposals on meeting agenda of that shareholders meeting.
